WORK EXPERIENCE

Information Services Lab & Printer Technician

DePaul University – Chicago, IL | 2023–Present

- Deliver daily technical support for faculty, staff, and students across multiple campus buildings.
- Troubleshoot and resolve desktop, laptop, printer, and poster printer issues, ensuring minimal downtime.
- Install, configure, maintain, and update software applications and operating systems.
- Perform hardware setup, maintenance, and repairs for computer labs and individual workstations.
- Document issues, resolutions, and recurring problems to improve service efficiency and user experience.
- Collaborate with IT teams to ensure systems remain compliant with university technology and security standards.

Information Technology Intern

Ascension Parish School Board – Donaldsonville, LA | 2021–2023

- Provided help desk support to multiple K–12 schools, supporting teachers, staff, and administrators.
- Diagnosed and resolved hardware and software issues involving laptops, desktops, printers, smartboards, and laminators.
- Reimaged devices, deployed system updates, and maintained device inventories.
- Supported STEM classrooms, including setup and troubleshooting of 3D printers and related technologies.
- Escalated complex issues following established IT procedures and documented resolutions for future reference.
